

Additional Demands Made by Illinois Governor Rod Blagojevich

by Baron von Funny

This week, Illinois Governor Rod Blagojevich was arrested by federal authorities on corruption charges, including an allegation that he conspired to essentially sell President-elect Barack Obama's seat in the U.S. Senate to the highest bidder. Among the rewards Blagojevich was reportedly seeking were an appointment as Secretary of Health and Human Services, the head of a private foundation or multi-million-dollar non-profit, and a lucrative spot on a corporate board for his wife Patti. But his demands didn't stop there...
