

### **Possible Side Effects of Savella, the Newly-Approved Fibromyalgia Drug**

by Baron von Funny

This week, the FDA approved Savella, a new drug designed to help sufferers of Fibromyalgia, a chronic disorder characterized by extensive muscle pain and heavy fatigue. As with any drug, Savella has some potential side effects users may want to be aware of...

### **Possible Side Effects of Savella, the Newly-Approved Fibromyalgia Drug**

- May cause occasional fibromyalgia. (*Mike*)
- Excessive Savellation. (*Sean*)
- Complete and utter inability to tell Dylan McDermott from Dermot Mulroney. (*Joe*)
- Sudden, screaming orgasms while driving. (*Brandon*)
- Sleepwalking, sleep eating, and sleep genocide. (*Jameson*)
  
- Extensive muscle pain could be replaced by acute testicular pain. (*Brad*)
- Powdered urine. (*Matt*)
- Inability to properly administer the oath of office for an incoming U.S. President. (*Brandon*)
- Involuntary speaking in the distinctive voice of *The Lion King's* Ernie Sabella. (*Jameson*)
- Increased chances of myofibrilgia. (*Sean*)
- Uncontrollable urge to shout out Larry Bird's name during sex. (*Mike*)
- While watching *The NBC Nightly News*, anytime Brian Williams speaks, all you will hear is the haunted moans of ancient ghosts. (*Brandon*)
- Genital wings. (*Matt*)
- Whenever you read a word that has a "Q" in it, you poop a little. (*Joe*)
- Difficulty swallowing, or in rare cases, way too much ease in swallowing. (*Jameson*)
- Penile texting and vaginal blogging. (*Brandon*)
- Overwhelming desire to buy large quantities of stock in Forest Laboratories, Inc. and Cypress Bioscience, Inc., the

makers of Savella. (*Matt*)

- Sexual attraction to Al Roker. (*Brad*)
- Uncontrollable urge to punch Terry Bradshaw in the neck (though results were the same with placebo). (*Brandon*)
- Muscle spasms, including coordinated spasms and, in some instances, reports of spontaneous opera composition. (*Jameson*)
- Belief in the idea that the Golden Globes "matter." (*Matt*)
- Excessive desire to ask your doctor for a medication you know nothing about for a condition that you may not even have. (*Sean*)
