

### Official Months That Never Got Off the Ground

by Baron von Funny

If you've watched an NFL game or driven on a road in the past two weeks, you're aware that we're in the middle of Breast Cancer Awareness Month. But October is also National AIDS Awareness Month, LGBT History Month, National Adopt A Shelter Dog Month, and Dwarfism/Little People Awareness Month, among many others. With so many official months in circulation, it comes as no surprise that Congress is deluged with proposals, some of which simply don't make the cut.
